

To: Pasadena Planning Commission & City Council

From: Pasadena Open Space Preservation

We, the undersigned, strongly **support retaining the Eaton - Edison corridor as open space** and **oppose any zoning and general plan amendments** by the Pasadena City Council that would allow **public-storage facilities** in the Southern California Edison right-of-way properties. It is our intent to bring to the Pasadena City Council's attention the negative impact that Edison's proposed development would have on the environment, small businesses, and area residents.
